

Beats

Questions

1. Is the amplitude of beats formed constant?
2. Are nodes and antinodes formed in beats?
3. What happens when the frequencies are equal?
4. Is there any net transfer of energy from one point to another in beats?
- 5.

Note :

Questions given above may be visualized and solved using the simulations. However, obtaining a mathematical solution is to be always treated as the final answer and obtaining such a mathematical solution implies a deeper understanding and application of the concept.
